La Fondation des Mines Terrestres du Canada

A partner in Adopt-A-Minefield / Partenaire d'Adopt-A-Minefield

March 31, 2009

Dear Friends in humanitarian mine action:

We are writing to you to let you know that the Canadian Landmine Foundation is undergoing changes that are designed to ensure that we are able to continue to work for a mine-safe world well into the future. Our new business model will operate in partnership with the University of Winnipeg and the Centre For International Governance Innovation in Waterloo, ON. Through the assistance of the staff of these two institutions we will reduce operating costs by over 75%. We are grateful to these institutions for their generous assistance.

As a result of these changes we will be closing our office in Toronto and re-routing general inquiries to Waterloo and finance issues to Winnipeg. Scott will be joining the Board of Directors and Seemoir will be joining the Audit and Finance Committee of the Board. This reflects our continuing commitment to achieving a landmine-safe world. The new contact information will be:

It has been a great pleasure to work with you. We have done well together. To date we have funded 91 projects in 13 countries and funded the training of 17 mine detection dogs. The impact of that work has improved the lives of thousands of the most disenfranchised people in the world. We hope and trust that you will continue to support this cause until we can truly say that the next generation of world citizens can walk without fear.
